Hand Built Kitchens & Bespoke Furniture

Classic & Contemporary Hand Built Kitchens & Bespoke Furniture

The design and layout of kitchens is of a personal nature and at Radius we tailor our designs to suit individual requirements. All of our kitchens are made to order and we can offer a wide range of styles from the elegant simplicity of Shaker and Mackintosh, to the more elaborate and intricate use of contrasting timbers with the use of marquetry and inlays.

Radius Woodworkers not only specialise in tailor-making kitchens, but are also experts in furniture design to suit many other areas of your home.

The Total Package

Radius employs a select team of furniture makers dedicated to producing work to the highest standard.

The installation of the finished products, be that of a kitchen, bedroom, study, home office or of living room furniture, is undertaken by our own craftsmen and any building works including electrical & plumbing works is carried out by a local family firm with a history of working with us.

Our expertise also goes beyond designing furniture. We can offer advice on flooring, lighting schemes, decoration and choice of appliances from range cookers to microwaves.

Personal Service

The design and project management of the commissions is the domain of the owner and founder of the business, Ian Philp. It is the attention to detail and the personal relationships developed with our clients from the outset to the completion of the project, which is the hallmark of our approach.

Experienced Craftsmen

Radius Woodworkers have been designing and making tailor-made kitchens and domestic furniture for nearly 30 years. For further information please call 07970 871 611 or visit our showroom and workshops.
